Dynasty Warriors 4 TOTAL Guide

Introduction

Greetings, and thank you for at least looking through my guide. As my third major compilation, my hope is that this guide will prove to be as useful to many as the first one was. Forgive me for this page, as I know you'll want to jump right into the action with this information. However, there are a few things I want to make perfectly clear to each and every person who reads and/or uses this guide.

First, and foremost, this guide is a compilation of information that comes from Muni Shinobu's guide. The information contained within these pages is strictly a compilation, in easier reading form, of his information. As such, I ask that you not steal his work. It could not have been easy to find all of these various weapons, items, buns and pots, and he has been gracious enough to share his findings with us across many games, even before the release stateside, so that we would not be completely lost. Since KOEI has seen fit not to have a strategy guide released, he has been the primary (and in some cases, only) hope of finding hidden information. Respect him by not stealing from him.

Second, the information **is not** 100% verified by me. Names that were in the Japanese version may be different than in the US version; stages may not have been unlocked yet since the game came out; characters may not have been discovered. Keep this in mind when you use the guide. Some information may be different from the actual game, for one reason or another. And don't gripe off at me because of it – again, the game JUST came out. I haven't had the chance to test every single solitary thing, so when I can, I will make sure I do. In the meantime, if you have verified some of the information, feel free to contact me and let me know, so that I can update the file and credit you appropriately.

Finally, the procedure for unlocking and navigation in this game is different than part 3 or Xtreme Legends. The Musou modes are longer and more general, instead of a random set of stages there is a set path per family. There are no weapons to find, and there are more items to be found. Because of all of this, the way the guide works will be different than previously. If you have any questions, additions, changes, or feedback, please email me at my current address, marcusd@digital-legacy.net. I don't currently have internet access, so it may take me a while to get back to you, but rest assured I will.

Thank you for your continued support, and enjoy.

Level 10 Weapons

NOTE: The Level 10 weapons have 4 requirements. These MUST be in effect; otherwise, the procedures will not work.

1. The difficulty **MUST** be set to Hard.
2. The weapon **MUST** already be at Level 9.
3. (Unconfirmed) The Mode **MUST** be set to Free Mode unless otherwise noted.
4. The Stage Side **MUST** be the character's side. For example, Liu Bei would be SHU side.

Don't email me asking "well why didn't it work?" if you didn't even bother to verify those 3 things are true. I won't answer questions that are already answered in this guide, so don't waste your time asking. Also, names in red have been verified, either by myself or another person.

SHU

<u>Character</u>	<u>Stage</u>	<u>Weapon</u>	<u>Requirements</u>
Liu Bei	Battle of Ru Nan	Gold Moon Dragon	<p>First, you'll need to meet up with Zhao Yun. He'll appear by your Gate, in the south, and he's heading up towards the castle. Just go to where he is, and he will swear his allegiance. Once this is done, go as fast as you can to the castle gate, and kill Li Dian. The doors will open, and you'll need to rush in to meet up with Zhang Fei. Once you do this, Xiahou Yuan will appear down by your gate. You'll need to go and defeat him before Guan Yu shows up - which will be between 27:00 and 25:00 on your stage timer. After defeating Yuan, go back into the castle and defeat both Yu Jin and Xu Zhu, who are inside fighting. This opens the door where Zhang He is, as well as causes Xiahou Dun to appear. Kill Dun first, then swing back by and kill Zhang He. Once that's done, take out Yue Jin, who is up by Cao Cao. The message should automatically appear.</p> <p>ReV's Note: I personally found this one to be much easier with Red Hare. The time needed to get from place to place is a lot less with Chi Tu Ma (Red Hare) than it is to just walk around. Also, I only got this in Free Mode; Musou Mode didn't get me anything; however, I don't know if that was due to the fact that I had killed Zhang He before Xiahou Dun, or if it was the fact it was Musou Mode. If anyone has or can get weapons in Musou Mode let me know.</p>
Guan Yu	Battle of Fan Castle		<p>Basically, fight troops until Wu's reinforcement units arrive. Once they arrive, you need to defeat Zhou Tai, Lu Xun, and Lu Meng. The order isn't important.</p>
Zhang Fei	Battle of Chang Ban		<p>Take out Xiahou Dun, Xiahou En, and Xiahou De first. Once that's done, escort Liu Bei until you get to the bridge. Let him cross first, then follow. Zhang Fei should do the yell event. There will be a notice that Liu Chan, the newborn child of Liu Bei, is stuck in the castle and surrounded by troops. Take a horse and</p>

Dynasty Warriors 4 TOTAL Guide

			ride into the castle to where Liu Chan is. There's a red box against the wall; take it, and ride over to where Xiahou Yuan is. Kill him before Zhao Yun dies. If he's already died before you get a chance to kill Xiahou Yuan, hit that magic Reset button.
Zhao Yun	Battle of Bo Wan Po		Zhuge Liang will instruct your team in this battle; basically, follow his instructions. First, lead Xiahou Dun to the fire attack spot down the center path, as noted on the map. You'll need to go all the way down the path, at least until you can see the gate in the distance. Once you're there, just wait. Make sure Dun talks about you being a coward. When the attack is successful, kill Dun. Han Hao will then charge you; lead him to the upper path. When Guan Ping appears, kill Han Hao. Next, go to the upper bridge, and taunt Yu Jin to follow you across it. When Guan Yu pops out, kill Yu Jin. You'll see Zhuge Liang order Zhang Fei to burn Cao Cao's food; once that's done, blaze a trail (kill enemies in the path) for Zhuge Liang to enter the castle and meet Cao Cao. ReV's Note: This one isn't hard, but it is tedious. The enemy has a tendency not to follow you if you're on a horse, so use Red Hare to get from place to place, but for the actual taunting, go on foot so the general keeps you in sight.
Ma Chao	Campaign for Cheng Du		Navigate your way through the maze towards where Liu Zhang is; eventually, Pang De and Ma Dai will arrive as enemy backup troops. Defeat them to gain the prize. ReV's Note: This one must be done in Musou Mode.
Huang Zhong	Battle of Jian Ye		Defeat either Huang Gai, Taishi Ci, or Zhou Tai before you defeat the true Sun Jian. Sun Shang Xiang, Sun Ce, and Sun Quan will all appear and attack. Defeat all three. ReV's Note: Sun Shang Xiang, Sun Ce, and Sun Quan will auto-regenerate after a few minutes once you defeat them, so you don't actually kill them until after Sun Jian is dead. Since I haven't done this one myself yet, you may have to kill all three before any one of them regenerate.
Wei Yan	The Campaign For Jing		Xing Dao Rong will attack you in an ambush down by where Liu Bei starts. Defeat him first. Then, defeat Liu Xian, who is the sub general of Liu Du. Kill Liu Du next, then swing over to the bottom fortress where Jin Xuan will challenge you to a duel. Decline the duel and avoid him, going past him through the fortress. Keep going until you reach the castle wall, where you'll find Yang Ling. Kill Yang Ling, which will cause Huang Zhong to emerge and challenge you. Defeat him, either in a duel or in regular battle. If you succeed, Huang

Dynasty Warriors 4 TOTAL Guide

			Zhong will join Shu, and you'll get the weapon.
Yue Ying	The Nanman Campaign		<p>Defeat everyone except for Wu Tugu. Zhu Rong must be defeated in duel, Meng Huo must be defeated 6 times (of which 1 must be a duel, and he will challenge you the third time you defeat him), and then for the final time he will appear inside the base. Approach Wu Tugu, and wait for Zhuge Liang to announce a plan. Beat on Wu Tugu but do not kill him. Eventually, Zhuge Liang will order fire arrows in order to take out the Teng Jia (bamboo armor) units. When this happens, Yue Ying will claim her item.</p> <p>ReV's Note: This stage has a LOT of soldiers. IN fact, it's very common to have everyone but you die. They just keep coming and coming. Because of this, your base will be in danger frequently, even if you raise your own morale. Take out as many strongholds as you can to swerve some of the soldiers off while you're waiting for the next fight with Meng Huo.</p>
Jiang Wei	Battle of Tian Shui		-
Pang Tong	Battle of Luo Castle		<p>First, clear out all of the enemy troops that are above the ally castle. Zhang Ren will get pissed off and attack you; lead him across the vertical bridge (the one closest to the castle). Bombs will be set up, and when you go near the bridge again, it will be destroyed to prevent Ren's escape. Track him down and kill him.</p>
Zhuce Liang	Battle of Wu Zhang Plains		<p>Head to the left and go after Zhang He. An Arbalest unit will approach you (it's a machine that shoots arrows at high speed) and block you in. Take out Zhang He, then head towards the enemy encampment. Sima Yi will get enraged by your taunts, and a Supply Troop will appear, heading towards your base. Go back and kill Xiahou Dun, because he'll be targeting the troop. When the Troop makes it to your base, you'll get the weapon.</p> <p>ReV's Note: This can only be done in Musou Mode. Also, The Battle of Jie Ting has to have been cleared, or the Supply Troop won't show up, because the supplies are coming from there. Xiahou Dun goes at the speed of lightning when he's pissed off, so be careful around him. If he causes you to go into the red, run and jump as best you can, because he is able to run up to you and slash you quickly, killing you.</p>

WEI

<u>Character</u>	<u>Stage</u>	<u>Weapon</u>	<u>Requirements</u>
Cao Cao	Battle to Chi Bi		First, go after Pang Tong. His tactic will fail, allowing you to defeat Zhuge Liang so he cannot summon the wind. Take out Gan Ning and Lu Meng, which will cause the Wei army to fight full force. Take out Huang Gai to stop the fire. ReV's Note: This must be done in the order that I've listed it.
Xiahou Dun	Battle of Xia Pi		Zhang Liao will show up as a support unit. Defeat him, then defeat Diao Chan.
Xiahou Yuan	Battle of Ding Jun		Kill the hostage that you are releasing immediately before he can escape, then defeat Huang Zhong.
Dian Wei	Battle of Wan Castle		When Zhang Xiu retreats, head towards Cao Cao. Cao Cao will exchange words with you (Dian Wei), then you'll need to blaze a path for his escape. Keep doing this until the fire attack that blocks the exit; Dian Wei will break through the fire wall.
Xu Zhu	Battle of Tong Gate		Defeat Pang De and Ma Dai in that order. Han Sui will defect to Cao Cao's side. Then, the Shu troops will start their attack.
Zhang He	Battle of Jie Ting		Go down to where Ma Su is to surround him, then kill him. When you've done that, first defeat all sub generals, then all main generals. MAKE SURE that you kill the subgenerals first , because you won't be killing every general if you kill the main generals.
Zhang Liao	Battle of Hu Lao Gate (Lu Bu)		FIRST, go to Si Shui Gate and defeat Liu Bei, Cao Cao, and Sun Jian. Once that's complete, go to Battle of Hu Lao Gate. Wait until the enemy starts their fire attack, then approach one of the three above. After the event, defeat all three. ReV's NOTE: This is Musou Mode ONLY.
Xu Huang	Battle of Guan Du		Defeat Yan Liang and Wen Chou. Yuan Shao's army will arrive to the battlefield. Wait for Guan Yu and Liu Bei to encounter one another, causing them to leave the battlefield. Your two fortresses at the top of the map will be captured, and Cao Cao will retreat into the castle. Battering rams will show up to the field, and your army will locate the enemy food supply. Cao Cao will proceed to attack the supply depot; once he enters, follow him in. Take out Chun Yu Qiong, and an enemy ambush will appear outside of the fort. The castle walls will finally fall; defeat the enemy ambush after this happens, and then supply depot will be destroyed.
Cao Ren	Battle of Fan Castle		Defeat all four of the weapons that are sieging the castle. Lu Meng will come out to stop you; defeat him.
Zhen Ji	Battle of Chang Ban		First defeat Zhao Yun. When Zhang Fei yells and frightens the troops at Chang Ban bridge, defeat him. When Ma Su appears with an

Dynasty Warriors 4 TOTAL Guide

			enemy backup troop, defeat him. When Liu Qi appears with his navy, defeat him. Defeat Guan Yu, who is guarding Liu Bei's escape, then defeat Zhuge Liang.
Sima Yi	Battle of Wu Zhang Plains		Take out Zhang Yi and Wei Yan. Take out Ma Su next which triggers Zhuge Liang's fake death and Wei's full assault. Kill Guan Xing and Ma Chao.

Sun Shang Xiang	Battle of Nan County (?)		Defeat Wang Lang. Zhou Yu will step up in an event. After the event, kill Cao Ren.
Sun Quan	Battle of He Fei		Zhang Liao will retreat from the field to prepare for his ambush. Sun Jian will come out from the base, and the bridge behind him will be destroyed, isolating Sun Jian.
